

INDUSTRIAL BLINDS

Industrial Blinds is a transparent soft PVC material having outstanding see through qualities which allow light to pass through but does not allow harmful ultra violet rays to enter. Industrial Blinds maximum usage in commercial and industrial factories. Applications designed to suit the prevailing weather conditions.

Industrial Blinds can be designed by using light weight PVC strip with a small overlap for internal pedestrian doors to heavy grade with maximum overlap for the most exposed doorways.

Industrial Blinds are the most solutions to protect your employees & goods from adverse environmental conditions such as heat, cold, noise, humidity, dust, insects and draft where uninterrupted passage is essential.
